Questions and answers, after Ringo Starr and his all-star band finished performing their melody of hits Star opened the floor to questions from the media.

One of the first questions Star had to answer was how is George Harrison present state of health. You could really tell Starr was not to thrilled to talk about it. None the less Ringo's response was, I last spoke to George Harrison by phone 3 weeks ago and George was doing fine at that time, now can we move onto other questions, Starr replied.

Another reporter asked Starr what made you decide to have a very attractive female like Shiela E. in your band. Starr stated, she's a very talented and gifted musician, 'she's not just a pretty face Starr explained to the world she's got real talent'. For nothing other then that is why she's in the band.

In the meantime, another reporter asks Shiela E what is it like being on the road with Ringo Star. E stated, it's been a long life dream and it's a great on or to play with Ringo Starr. I remember listening to his music when I was 9 years old.

Another question for Starr by our own celebrity extras.com media guru, J.P. J.P.'s first question to Starr was what is your fondest memory of all time is? and the second question was what is your all time favourite song?

The first question by J.P. really had Starr thinking. After a moment of back flashes Starr replied, that's a tough question to answer. Starr, there are so many, however, my fondest memories remain with things I use to do did with my granddaddy.

And to answer your second question, my most favourite song of all times is by the Beatles.

Fan comments after the show, the magic and excitement Ringo Starr brings to a stage is just unbelievable, just the thought of being in the same building none the less in the same room with Ringo Starr gives me the chills expressed a huge Ringo Starr fan in from as far down as Australia.

The show was great expressed a popular morning radio talk show host. She also added he was one of my all time favourite Beatle.
