Teenage idle, Britney Spears turns heads

The very foxy and sexy looking pop princess was fabulous last night when she performed to more than 18000 screaming fans at the Air Canada Center.

Britney was compared to a young Madonna, as a matter of fact one of Britney's dreams is to one day perform live with Madonna. One thing that both Madonna and Spears have in common, other than their desire to perform together, is their stage wardrobe which display an excessive amount of skin.

Britney's dancing was simply outstanding. The band and backup singers were amazing. The lighting and pyro was just incredible. The sweet and foxy Spears certainly knows how to move her body. The word on the street is, her good looks and music makes Spears the next up coming artist of the year.

This was Britney's second performance in Toronto, Canada in the past 12 months. She performed this past summer to another packed house of people over at the Molson Ampitheatre.

Closing remarks, the concert was a hit.
